

# Be an Insider

BDS Insight program designed for organizations facing growth, launching programs, and managing change.

## Insiders Get

### Training

½ day of training service per quarter. Use it for staff retreat, full day conference, board development or an annual meeting.

### Content Curation

Monthly e-newsletter with research-rich content devoted to board/staff development, culture, and conflict resolution.

### Organization Consultation

Monthly Skype Organizational Consultation Sessions. Build plans, strategize resources, and manage change.

## Insiders gain Access

The day-to-day can get in the way of big vision goals. Having accountability and support makes a huge difference in success for any program or change effort.

No more drive-by-trainings, no more frantic search for wise counsel, no more languishing projects that get lost in the shuffle.

Companies who are “Insiders” get access to expertise for organization-wide consultation and development. Insiders can leverage the organizational knowledge of the relationship to build and support organizational programs and leaders. Want the person training your team to really understand your organization instead of offering canned material time after time?

Gain access to behavioral and leadership science through newsletter content.

Maximize efforts through monthly consultation sessions when planning new objectives or refining existing programs.

A set monthly fee for a host of supports can lead to measureable improvement in your organization.

The Insider Program is designed to give organizations access and flexibility for one easy-to-track monthly payment between \$400 and \$800 depending on organization size. Insiders benefit from reduced hourly rates for additional project-based work delivered on an a la carte basis. Ready to be an Insider?
